## Asphalt & Concrete ▶ **C99 Floor Saw**

The Clipper C 99 is a compact and economical floor saw, for wet or dry cutting of asphalt or concrete. The outstanding cutting performance is obtained by the optimal weight distribution. The positioning of the 20 litre water tank adds weight onto the blade while maintaining an excellent view of the cutting operation. By means of a hand-wheel the operator can adjust the cutting depth,

indicated by a gauge (patent pending). The handle is adjustable to the operator height and stays level at any cutting depth. Vibration is kept to a minimum with the heavy-duty frame of the C99 which will extend the machine life and add comfort to the operator - The best performance is obtained with genuine NORTON dry or wet cutting diamond blade.
